Deposes and says: I was standing on Houston Street near the intersection of Elm Street. I took a picture of President Kennedy's car as it passed along Houston Street. I have an old camera. I looked down real quick and rolled the film to take the next picture. I then ran down to the corner of Elm and Houston Streets, this being the southwest corner. I took another picture just as President Kennedy's car rounded the corner. He was just about all the way around the corner. I was standing back from the corner and had to take the pictures through some of the crowd. I ran on down Elm a little more and President Kennedy's car was starting to go down the hill to the triple underpass. I was running trying to keep the President's car in my view and was winding my film as I ran. I was looking down at my camera to see the number of the film as I ran. I took another picture as the President's car was going down the hill on Elm Street. I started to wind my film again and I heard a loud noise. I thought that this noise was either a firecracker on a car had backfired. I looked up and it seemed like there was another loud noise in the matter of a few seconds. I looked down the street and I could see the President's car and another one and they looked like the cars were stopped. Then I saw a flash of pink like someone standing up and then sitting back down in the car. Then I ran around so I could look over the back of a monument and I either saw the following then or when I was standing back down on the corner of Elm Street. I cannot remember exactly where I was when I saw the following: I heard at least two shots fired and I saw what looked like a firecracker going off in the president's car. My assumption for this was because I saw fragments going up in the air. I also saw a man in either the President's car or the car behind his and someone down in one of those cars pulled out what looked like a rifle. I also remember seeing what looked like a nickel revolver in someone's hand in the President's car or somewhere immediately around his car. Then the President's car sped on under the underpass. Police and a lot of spectators started running up the hill on the opposite side of the street from me to a fence of wood. I assumed that that was where the shot was fired from at that time. I kept watching the crowd. Then I came around the monument over to Main Street. I walked down toward where the President's car had stopped. I saw a Police Officer and some men in plain clothes. I don't know who they were. These Police Officers and the men in plain clothes were digging around in the dirt as if they were looking for a bullet. I walked back around the monument over to Elm Street where they were digging in the dirt. I went on across the street and up the embankment to where the fence is located. By this time almost all of the people had left. There were quite a few people down on the street crowded around a motorcycle. I was looking around the fence as the rumor had spread that that was where the shot had
